

# Daniel Gutierrez

## Crew Member

Hi! My name is Daniel Gutierrez, a student at CSUN looking for a CS job at your company! I read about your company and feel that I fit your values to a T, making me a strong contender for any position you have available.

With my broad CS knowledge, from programming, server work, or paperwork, I possess the capability to fulfill the roles I am put in, regardless of what they may be. My ability to communicate with others will also serve well in my ability to learn and support others effectively and efficiently.

---

## Work Experience

### Crew Member

McDonalds

June 1st 2019

This job provided me with the ability to perform under pressure, be quick on my feet, and the ability to soothe the emotions of irate people.

## **Education**

### **California State University Northridge, 2023-present**

Undergraduate – Senior

### **Antelope Valley Community College, 2017-2023**

AS - Computer Software Developer

AA – Mathematics

While I had a rocky start, I am well on my way to completing my bachelors and proving myself for your company.
